Certified Electronic Health Record | Scheduling | Billing | ePrescribing

ABEL[®] Medical Software Inc.

- Certified Solution eligible for IT funding
- Microsoft Gold Certified Partner
- Complete one-stop solutions for all your healthcare IT needs

About ABEL Medical Software Inc.

- Privately held corporation
- We are well positioned to offer the best value to physicians for their investment in our products and services - this value includes any necessary customization on a timely basis to ensure that our software quickly adapts to healthcare providers' existing workflow and continuously changing clinical/administrative requirements
- A Microsoft Gold Certified Partner
- Self financed, debt free company
- Use the latest Microsoft .NET technologies
- Offer on-site / on-line training
- 24/7/365 telephone support
- Patient and practitioner portals and more

 **ABEL** Medical Software Inc.

- Certified Solution eligible for IT funding
- Microsoft Gold Certified Partner
- Complete one-stop solutions for all your healthcare IT needs

About ABEL Medical Software Inc.

- As Microsoft Gold Certified Partners we use the latest Microsoft .NET technologies to deliver comprehensive clinical and practice management solutions
- In an independent survey conducted by Microsoft, 97.4 % of respondents reported satisfaction with ABEL's products, support, and service
- USA - ABELMed EHR-EMR/PM v9 software is a CCHIT* and Surescripts** certified solution *CCHIT'08 (eRx conditional) and **SureScripts certified (prescription routing)
- We are committed to achieve certification required for ARRA/HITECH funding eligibility and as an interim measure offer financing solutions to facilitate immediate adoption of EHR

- Certified Solution eligible for IT funding
- Microsoft Gold Certified Partner
- Complete one-stop solutions for all your healthcare IT needs

Electronic Medical Records/Administration

Our exemplary and personalized pre and post implementation support and efficiency in customization of our products to suit the workflows of a variety of practices makes us the ideal choice for small and medium sized physician offices. Our comprehensive and fully integrated practice management software optimizes billing and administration of medical practices.

Here is a list of the features and services described in this demonstration:

Features and Functionality

- Physician Dashboard
- CPP (Cumulative Patient Profile)
- Patient Encounters/Progress Notes
- Prescription Module with Surescripts certified ePrescriber
- Voice Dictation Technology
- Electronic Lab Interface
- Document/Image Management
- Referral Management
- Chronic Disease Management Flowsheets
- Preventive Care/Health Maintenance
- Scheduling
- Patient Registration

Features and Functionality, continued

- Task Management
- Billing
- Security

Services and Support

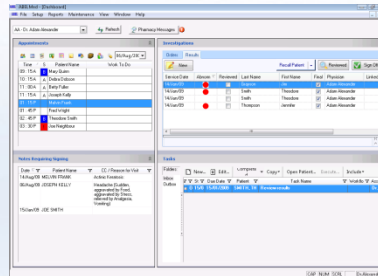

- Implementation
- Training
- Software Support
- ASP/SaaS and Local Solutions
- ABELWebsites
- Patient Health Records (PHR) and ABELHealthNet
- Additional services

- Certified Solution eligible for IT funding
- Microsoft Gold Certified Partner
- Complete one-stop solutions for all your healthcare IT needs

Physician Dashboard

Know what you need to do and when. The dashboard helps you manage your time and outstanding work-to-do by drawing your attention to items such as lab results, unsigned encounter notes and tasks that you've assigned or have been assigned to you and your appointments for that day.

ABEL Medical Software Inc.

- Certified Solution eligible for IT funding
- Microsoft Gold Certified Partner
- Complete one-stop solutions for all your healthcare IT needs

Patient Encounters/Progress Notes

- Record findings using a mouse, keyboard, voice dictation or Tablet PC handwriting recognition. Use whichever method of data entry that suits you best
- Improve accuracy and speed by using predefined templates for standard encounters. (e.g. a hypertension visit)
- Custom design templates to fit your needs and import and export templates to share with your colleagues in other practices that use ABELMed
- Combine templates in a single encounter e.g. hypertension and depression. Of course, you can always add any additional information if necessary
- Save time by pulling in the information from a similar previous encounter e.g. follow up of a chronic disease such as arthritis

ABEL Medical Software Inc.

- Certified Solution eligible for IT funding
- Microsoft Gold Certified Partner
- Complete one-stop solutions for all your healthcare IT needs

Voice Dictation Technology

ABELMed EHR-EMR/PM integrates with Dragon NaturallySpeaking v9 to save you time and money.

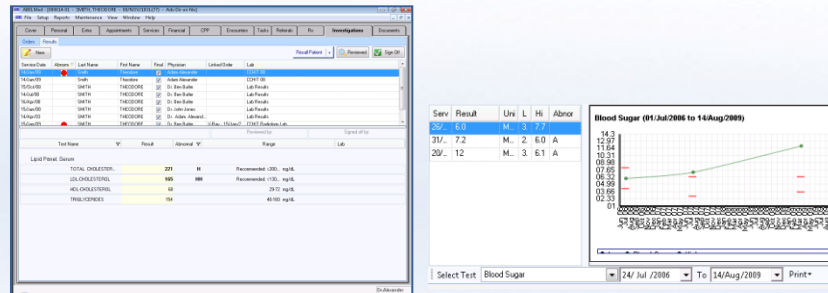

- Record voice files on-the-go, in your clinic or at the hospital.
- Voice files are quickly converted to text and loaded directly into your patient encounters through integration with ABELMed EHR-EMR/PM.

- Certified Solution eligible for IT funding
- Microsoft Gold Certified Partner
- Complete one-stop solutions for all your healthcare IT needs

Electronic Lab Interface

- Receive lab results electronically. You will get them sooner and in a clear format. They are automatically recorded in the patient's chart, along with your comments
- Review results on screen or print them
- View cumulative as a graph or as a table
- Reduce time wasted in "Chart Search" when a lab report arrives

[Click to enlarge](#)

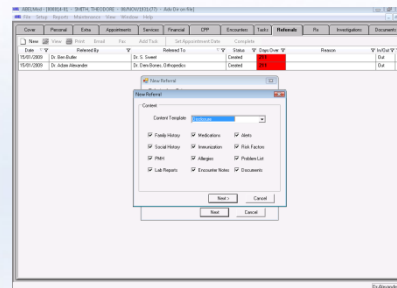

ABEL Medical Software Inc.

- Certified Solution eligible for IT funding
- Microsoft Gold Certified Partner
- Complete one-stop solutions for all your healthcare IT needs

Referral and Document Management

- Create referral letters. Generate referral letters quickly and easily from your existing encounter notes, CPP and lab results. No double entry required.
- Track referrals. Stay on top of your referrals by tracking which referrals have been sent, which patients have been seen, which require follow-up and which need referral responses sent.
- Manage Documents. Effectively manage patient documents such as x-ray reports consult notes which can be easily searched and retrieved.

- Complete one-stop solutions for all your healthcare IT needs

Billing

- Use billing information collected during the encounter to automatically create bills. Save time and reduce errors by recording CPT-4 and ICD-9 codes directly in the encounter and then assigning a task to billing staff to automatically create the bill without double entry of data.
- Avoid under-billing. The Evaluation and Management (E&M) coding wizard assists you in selecting the appropriate codes to avoid under-billing resulting from under-coding.
- ABELMed EHR-EMR/PM integrates with claims scrubbers such as 3M's Edit Engine to help you reduce billing errors, prevent revenue losses, save time and shorten the payment cycle.
- Electronic claims processing. ABELMed EHR-EMR/PM facilitates electronic claim processing using HIPAA compliant standards such as ASC X12N 837 and ASC X12N 835.
